

October 17, 2007

This letter is written without hesitation to recommend Arthur Becker to be considered for a position in engineering services.

Mr. Becker has been providing engineering support to Reading Consumer Products for the past nine (9) years.

During this time he has designed and provided support for development and manufacturing of our product "The MotorScrubber" as well as a variety of accessory products.

His work ethic, attention to detail and business experience make him stand apart as a professional dedicated to providing a high quality of service to his clients. If you have any questions regarding his history or experience with Reading Consumer Products, do not hesitate to contact me.

Sincerely,

A handwritten signature in black ink, appearing to read "Richard L. Bashore", written over a light blue horizontal line.

Richard L. Bashore
President
